

## Controls Commissioning Engineer (m/f/d)

Fulltime | Klagenfurt | Wien | Hart bei Graz, Austria

### #yourmission

- You are responsible for the commissioning of fully automated logistics concepts such as conveyor technology
- You will fly to our customers around the globe to configure and test our systems
- You ensure that our technologies are delivered to the customer on time and in accordance with defined quality criteria
- You are in ongoing contact with our customers and support them with training during the ramp-up phase
- The professional and independent preparation and follow-up of a project as well as the handover to the downstream departments are important parts of your job profile

### #youareknapp

- You are a passionate technician and have a keen interest in electrical engineering, mechatronics and control and automation technology
- You have solid PLC programming skills (focus: Siemens controllers)
- You enjoy traveling internationally – on average up to 75% per year
- You speak English well
- You are open to new ideas, work very independently and are customer-oriented

### #weareknapp

We offer you a secure and long-term job in a leading company in Styria and the opportunity to continuously develop yourself in a motivated team. This position is remunerated with at least € 2,875 gross (KV for employees in the metal industry, VWGr III/i1u2J.). A significant overpayment is of course possible depending on your professional qualifications and experience. You will also receive a monthly allowance of up to € 1,250 net and bonuses of up to € 1,250 gross, depending on the amount of travel.
