

Netzwerk- und IT-Engineer (m/f/d)

Fulltime | Hart bei Graz, Austria

#yourmission

- You will work on topics ranging from simple networks to high-availability solutions in the server and network area
- You are directly on site for our customer projects and have ongoing contact with customers (business trip share approx. 25%)
- Checking the planning documents for network solutions is an essential part of your tasks
- You support our Software Commissioning Engineers with your technical knowledge (e.g. DevOps)
- You work in a central role and are an important interface to our customers and several internal departments

#youareknapp

- You have a completed IT education (HTL or FH)
- You have experience with various operating systems (Linux, Windows, VMWare ESX)
- You have a broad range of knowledge and skills in the field of network technology
- You have solid knowledge in the field of network technology (routing, VPN) and data backup
- You speak English very well
- Thanks to your strong communication skills, you always find the right words for external and internal partners
- You enjoy working with modern technologies, are solution-oriented and very independent

#weareknapp

We offer you a secure and long-term job in a leading company in Styria and the opportunity to continuously develop yourself in a motivated team. If you are as enthusiastic about technology as we are and would like to actively contribute your knowledge to a globally successful company, then you have the opportunity to do so as an employee in „Software Commissioning“ after your high-quality internal training. This position is remunerated with at least € 3,100 gross (KV for employees in the metal industry, VWGr III/n4J.). Our employees impress with their personality, talent and commitment. Therefore, we determine your gross salary individually with you. An overpayment of the above salary is possible depending on your professional qualifications and experience.
