

IT Project Manager (m/f/d)

Fulltime | Hart bei Graz, Austria

#yourmission

- You are responsible for leading the successful implementation of the software solution from design and development through testing and delivery
- You work closely with our customers, our internal software professionals and other KNAPP cross-functional teams to communicate, monitor and define solutions and detail scope, as well as map out specified requirements
- Furthermore, you ensure that all tasks and job duties within the project life cycle are completed on time, offering support and guidance to other stakeholders as well as communicating project status and progress
- You manage the project core team and consequently the software workstream and you assure that all software stakeholders fulfill their obligations
- Overall, you are the main point of contact for all software topics for the customer and the KNAPP project lead

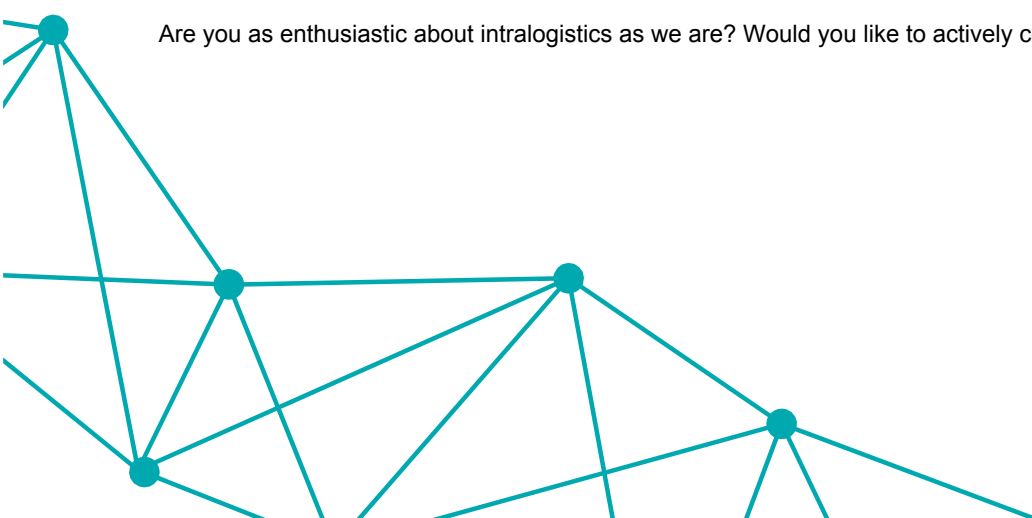

#youareknapp

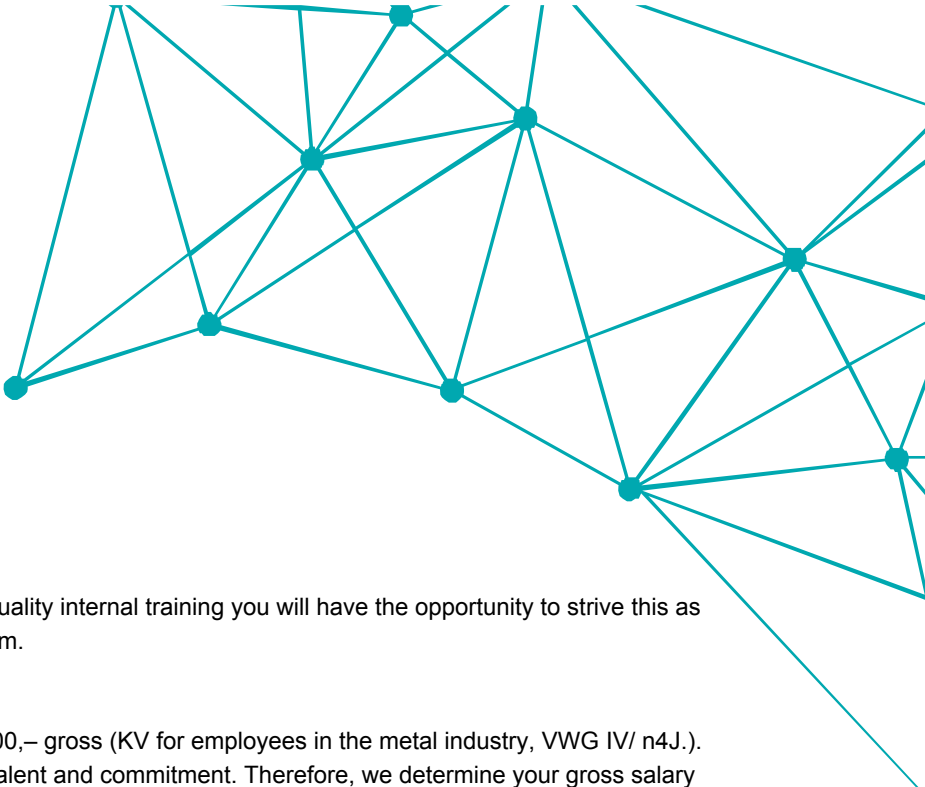

- You have a degree (HTL, University of Applied Sciences, University) in the fields of technology, IT or business administration
- You have several years of experience with the implementation of intralogistics projects
- You have knowledge of software architecture (WMS, WCS, MFS), interface communication, programming, data bases and data structures
- You are familiar with one or more project management methodologies, and you are experienced in leading cross-functional teams
- You have excellent communication and language skills – English is mandatory, German would be beneficial

#weareknapp

We offer you a secure and long-term job in a leading company in Styria and the opportunity to continuously develop yourself in a motivated team.

Are you as enthusiastic about intralogistics as we are? Would you like to actively contribute your knowledge to a
